

EX200 – RHCSA exam

Red Hat

- **Nível:**
 - **Duração:** 2,5h
-

Sobre o curso

This exam and the exam objectives provided here are based on the Red Hat® Enterprise Linux® 8 version of the exam.

The performance-based **Red Hat Certified System Administrator exam (EX200)** tests your knowledge and skill in areas of system administration common across a wide range of environments and deployment scenarios. You must be an RHCSA to earn a Red Hat Certified Engineer (RHCE®) certification. The skills tested in this exam are the foundation for system administration across all Red Hat products.

An RHCSA certification is earned when an IT professional demonstrates the core system-administration skills required in Red Hat Enterprise Linux environments.

Study points for the exam

Red Hat reserves the right to add, modify, and remove objectives. Such changes will be made public in advance through revisions to this document.

Diagnóstico de Competências
