

EX318 – Red Hat Certified Specialist in Virtualization Exam

Red Hat

- **Nível:** Avançado
 - **Duração:** 3h
-

Sobre o curso

The performance-based RHCVA exam (EX318) tests your ability to create, deploy, and manage Linux® virtual machines using Red Hat Virtualization Manager.

The **Red Hat Certified Virtualization Administrator (RHCVA)** certification demonstrates a system administrator's ability to deploy and manage virtual hosts in production environments using Red Hat Virtualization.

Objetivos

Although the objective of this exam is to test the ability to use Red Hat Virtualization to implement Linux virtual systems, it is not a test of system administration skills.

Pré-requisitos

- O candidato deve ter frequentado o seguinte curso: [Red Hat Enterprise Virtualization \(RH318\)](#)
 - Red Hat does recommend prior Linux systems administration experience.
-

Metodologia

Este exame pode ser realizado remotamente no seu espaço ou individualmente no centro de exames ou em sala com a presença do formador (devido à pandemia Covid-19, esta opção poderá não estar disponível no momento).
