Sobre o curso

In this course, you will learn how to plan, design, configure, maintain, and troubleshoot an integrated communications solution at an organization using Microsoft Teams. The course will cover Teams Phone with Calling Plans, Direct Routing, and Operator Connect, in addition to Teams devices, audio/video conferencing, and voice migration. Students will learn troubleshooting methodologies and how to resolve common telephony and voice problems.

This course prepares for the MS-720: Microsoft Teams Voice Engineer Exam. To earn the Microsoft 365 Certified: Teams Voice Engineer Expert certification, candidates must also earn the Microsoft 365 Certified: Teams Administrator Associate certification (MS-700: Managing Microsoft Teams Exam).

Destinatários

This course is designed for persons who are aspiring to the Microsoft Teams Voice Engineer role. The Microsoft Teams Voice Engineer:

- plans, designs, configures, maintains, and troubleshoots an integrated communications solution at an organization. The Microsoft Teams Voice Engineer
- must be able to translate business requirements into technical architecture and designs for communication solutions. The Microsoft Teams Voice Engineer
- is familiar with telecommunication technologies and has experience in Microsoft Teams, Microsoft 365, and PowerShell. They must be able to deploy and configure Microsoft Teams Phone with PSTN

connectivity through Direct Routing, Operator Connect, and Teams Calling Plans. The Microsoft Teams Voice Engineer manages Teams-certified devices, audio/video conferencing, and voice migration.
- collaborates with telephony providers and third-party vendors to enable advanced voice features in Microsoft Teams. The Microsoft Teams Voice Engineer also
- works with administrators for other workloads, including networking, identity, licensing, security, and compliance.

Objetivos

By actively participating in this course, you will learn to:

- Plan and Configure Microsoft Teams Phone
- Plan and optimize network performance for Teams Phone
- Configure and deploy Direct Routing
